

## Strategic Intentions

1

Support local economic development through the provision of relevant skills training to the next generation of professional and technical employees within the Active Leisure, Learning and Well-being Sector.

2

Work in partnership with local employers and stakeholders on a national basis to identify strategic skills gaps in the labour market to help increase employment opportunities and career pathways.

3

Working with national employers to support education and Lifelong learning opportunities that will promote economic and social inclusion through sporting, health and recreational activities that will develop the individual.

4

Through a coordinated and collaborative delivery partnership become the trusted advisors and training provider of choice for employers to engage in the new Apprenticeship standards.

5

To be recognised by the Active Leisure, Learning and Well-being Sector for the delivery of high quality innovative training programmes designed in partnership with the sector and employers.
